

Download Petition to Welcome Detainees in Your Town

If the small island nations of Bermuda and Palau can accept detainees wrongly held by the U.S. at Guantánamo and cleared for release, why can't the U.S.?

Download a petition and tell President Obama and Congress, "As far as I am concerned, Guantánamo detainees cleared for release are welcome in my town. All other detainees should be charged and tried in federal court or released if they have not committed a crime."

You may also [sign the petition online](#) [1] and [tell your friends](#) [2].
