

Communicate with a Guantanamo Prisoner

Your detainee's attorneys may share your group's existence with him, but you should write, too, individually and as a group, and invite community members to write, too. With your religious leader's permission, print handbills or cards with the detainee's address, and leave them at the back of the church or synagogue.

Attached is a Word template for a greeting card that members and audience members can sign and write greetings. To be printed on 11" x 17" card stock (outside only; blank inside)
